

NORTH-HOLLAND

---

## SUBJECT INDEX, VOLUME 12, 1995

---

- Approximate reasoning, 12:221, 12:263  
Axiomatic characterization, 12:43
- Bayesian networks, construction from data, 12:111
- Calculus, incidence, assignment methods for, 12:21
- Compact fuzzy-neural system, 12:279
- Comparative approach, qualitative fuzzy possibilistic logic, 12:1
- Conditional independence, 12:43, 12:111
- Conjunctions, nonstandard, 12:69
- Content representation, 12:317
- Current Issues in Fuzzy Technologies 1993 workshop, 12:157
- Decision making, ordinal, 12:237
- Extrapolative reasoning, 12:221
- Fast classification, 12:279
- Fuzzy logic control, 12:221  
  algorithmic aspects, 12:159  
  Current Issues in Fuzzy Technologies 1993 workshop, 12:157  
  genetic algorithms with, 12:299  
  linguistically oriented, 12:263  
  possibilistic, 12:1
- Fuzzy sets, 12:317
- Genetic algorithms, tuning fuzzy logic controllers by, 12:299
- Hardware implementation, 12:279
- Hierarchical rule base, 12:159
- IF-THEN rules, 12:263
- Implications, R- and S-, 12:69
- Incidence assignment, 12:21
- Incidence calculus, assignment methods for, 12:21
- Index weights, 12:317
- Inference process, 12:133
- Inference rules, 12:263
- Information retrieval systems, 12:317
- Interpolative reasoning, 12:221
- Knowledge representation, 12:85
- Linear programming, 12:21
- Linguistic fuzzy logic controller, 12:263
- Marginal problem, 12:43
- Max-t-norm interpolation, 12:263
- Membership functions generation, 12:279
- Membership rules generation, 12:279
- Modal logic, 12:1
- Modus ponens, generalized, 12:69
- Natural conditional functions, 12:43
- Normality preservation, 12:159
- Ordinal entropy, 12:237
- Ordinal probabilities, 12:237
- OWA operators, 12:237, 12:317
- Piecewise linearity preservation, 12:159
- Possibilistic logic, 12:1, 12:85
- Possibilistic reasoning, 12:85
- Possibility theory, 12:133
- Probabilistic model construction, 12:111
- Probabilistic networks, 12:111
- Probabilistic reasoning, incidence calculus and, 12:21
- R- and S-implications, 12:69
- Relevance, 12:317
- Retrieval effectiveness, 12:317
- Rule extrapolation, 12:221
- Rule interpolation, 12:159, 12:221

Running intersection property, 12:43

Sparse rule set, 12:221

Specificity, 12:133

Terminological logics, 12:85

Tuning, fuzzy logic control, 12:299

U-uncertainty, 12:133

Workshop, Current Issues in Fuzzy  
Technologies 1993, 12:157
